- Our warehouse is in London and wholesale prices include free P&P for orders over £250.

Our story

Hello! I'm Claudia. I discovered the power of CBD through my work as a nutritionist. I've seen the difference this mighty molecule can make to alleviating pain, insomnia, anxiety, hormone imbalance and so much more.

Over the past 3 years I've built a team of talented health professionals, all with a shared passion for CBD and improving peoples' lives. We've sought out the finest ingredients in unique combinations to deliver products that truly work.

More recently we discovered the benefits of applying CBD topically. Our new Anti-Ageing Face Cream combines anti-inflammatory CBD & CBG, with beta glucan, hyaluronic acid, vitamin E and neem oil for extra skin barrier protection and moisture. There is no other cream like this on the market.

We very much look forward to working with you and helping your customers achieve amazing results.

Meet our health experts

We are a team of experts, passionate about helping people transform their health and live their best lives. New! Anti-Ageing Face Cream

Wholesale: £18.75
RRP: £37.50

We are beyond excited launch our NEW anti-ageing face cream!

Harnessing the latest science of botanicals, this is a REVOLUTIONARY new product. We have searched far and wide for the latest and greatest botanical blessings to promote beauty through health, happiness and holistic plants.

CBD & CBG both cannabinoids are powerful antioxidants, antibacterial and anti-inflammatories. They also support the skin's natural cell cycle, helping to ensure the replenishment of damaged skin, keeping the skin protected, healthy and youthful. Having them together boosts their overall effects, especially when it comes to supporting tissue repair. They also help control sebum production, and keep the skin surface free of excessive oil and bacteria.

Beta-glucan is a natural polymer polysaccharide extracted from oats. It has a 20% higher moisture capacitance than hyaluronic acid; it improves skin elasticity, regeneration and collagen production.

Neem oil & Evening Primrose Oil both contain anti-inflammatory fatty acids Linoleic acid and Gamma-Linolenic acid, which help sustain skin softness and elasticity to reduce the effects of ageing

New!
