Who the Hemp are Mighty Green?

Established by a team of passionate experts in health and wellness, Mighty Green strives to help people transform their lives.

We combine technical expertise in nutrition science with front line experience in clinical nutrition and general medical practice to develop truly super natural CBD products, and also guide their effective use.

There's a lot of CBD out there, and we want to make sure you get the best nature can offer.

We're super excited to be sharing our feel good hemp with the world, and we want to shout across the rooftops about it.

We've searched far and wide for the very best CBD extract Europe has to offer, and ensured unparalleled quality control so our customers can take back control of their health.

Mighty Green is proud to offer products for any occasion. From inside to outside, we've got you covered.

Introducing...

Claudia le Feuvre, Nutritional Therapist, Eating Psychology Coach & Co Founder of Mighty Green, with 14 years clinical experience.

Rory Batt, MSc Personalised Nutrition, BSc Sports Science. Rory completed his Masters dissertation on the application of cannabinoids in Type 2 Diabetes.

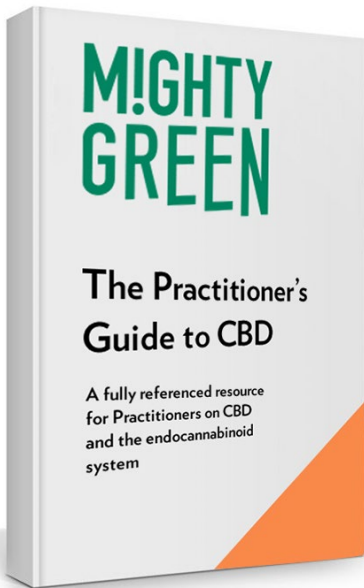

Dr Shereen Saleh, General Practitioner & Functional Medicine Practitioner. Dr Shereen has a special interest in CBD, women's health, mental health & dermatology.

Mike Balfour OBE, Health Industry Pioneer, founder of Fitness First health clubs around the world and Mentor to Mighty Green.

What Sets Mighty Green Apart

Having great products is one thing, knowing how to use them is another. Training and education is what sets Mighty Green apart from the rest of the market. We pride ourselves in providing tailored training to professionals in beauty, fitness and nutrition. We aim to support health professionals and their clients through training and education, so everyone can benefit from what CBD has to offer.

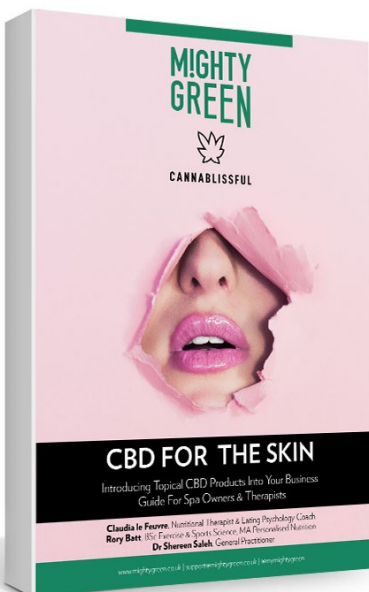

- What CBD is
- The Endocannabinoid System
- Mechanisms of action
- CBD in clinical practice

- Sports focus & flow
- Performance & Recovery
- Joint & bone health
- Stress, sleep & overtraining

The tremendous rise of CBD has been consumer driven. As practitioners ourselves, we understand how difficult it can be to source the latest research and mechanisms of action. That's why we have written a series of fully referenced eBooks.

- CBD, the Endocannabinoid System & The Skin
- Transdermal assimilation of CBD
- Anti-ageing potential
- Introducing topical CBD into your practice

- The Endocannabinoid System, brain development, maintenance & repair
- Cognition, learning & memory
- Mood, stress & reward

Products

Mighty Green products have been developed by health professionals. Our products are formulated for function, for targeted and purpose driven oral and topical applications.

We also work with one of the most well respected third party labs in the UK, Phytovista.

All our products are tested for cannabinoid content to ensure they are as awesome and safe as we say they are.

We're proud to say our CBD is sourced from EU certified strains of industrial Hemp, so we know exactly where our CBD comes from, and its quality.

We use Co2 extraction to obtain our CBD, which is the cleanest method and leaves no residual impurities.

Oral Drops

We've gone the extra mile to produce super pure and great tasting oils by winterising and fractionally distilling our CBD extract. What's left is a broad spectrum extract, which not only contains CBD but other cannabinoids too, all whilst keeping THC below legal limits. There's also a wide array of terpenes in the mix, which help cannabinoids do their job.

Mighty Green oils are formulated for function, which means we've considered every last detail for maximum effect. We use MCT oil as our carrier for CBD. MCT is derived from coconut oil and ensures a speedy and efficient delivery of CBD for a truly enhanced effect.

- Broad spectrum
- Fast acting
- High bioavailability
- Third party lab tested
- Range of concentrations to choose from (200 - 2000mg CBD)
- Clean (Co2) extracted
- All natural ingredients
- Less than 0.05% THC
- Vegan friendly

Mighty Green oral drops come in 10ml bottles, and contain a total of 200 drops. Our 2% oil comes in both natural and sweet orange flavours.

200mg contains 1mg CBD per drop (2% concentration)
500mg contains 2.5mg CBD per drop (5% concentration)
1000mg contains 5mg CBD per drop (10% concentration)
2000mg contains 10mg CBD per drop (20% concentration)

Balms

CBD & ARNICA BLISS BALM

Broad spectrum CBD meets some of nature's other blissful bounties for a truly complementary and synergistic effect.

We've packed in heaps of helping herbs into the mix, to support ultimate restoration and relaxation for tired bodies and minds.

With a little help from shea butter, beeswax, argan oil, orange, vanilla and arnica essential oils, the blissful effects of CBD are truly magnified for all encompassing bliss.

- 300mg Broad Spectrum CBD
- Third party lab tested
- High bioavailability
- Targeted application
- Clean (Co2) extracted
- All natural & synergistic ingredients
- Less than 0.05% THC

CBD & MAGNESIUM MUSCLE BALM

Our Broad spectrum CBD meets some of nature's other mighty marvels for a truly complementary and synergistic effect.

We've packed in heaps of helping herbs, essential oils and minerals into the mix, to support the recovery and rejuvenation of tired and achy joints and muscles.

Combining Frankincense, Cedarwood, Camphor, Magnesium Chloride, Beeswax, Shea Butter and Hemp Seed Oil with CBD was a no brainer. They are all great ingredients in their own right, and are especially helpful for tackling aches, pains and inflammation.

- 300mg Broad Spectrum CBD
- Third party lab tested
- High bioavailability
- Targeted application
- Clean (Co2) extracted
- All natural & synergistic ingredients
- Less than 0.05% THC

Cannablissful Massage Oils

Cannablissful massage oils have been formulated with careful consideration to deliver an almighty experience when combined with a massage.

CBD is great on its own, but even better when its got company. That's why we've infused our broad spectrum CBD with naturally vitalising essential oils. Our blends have been formulated by an aromatherapist for delightfully titillating scents and sensations.

That's not all, these ingredients are delivered by our proprietary blend of carrier oils that's so awesome, it feels like silk when gliding across the skin. We've spared no expense for this including jojoba and argan oils with shea butter and coconut oil.

- 1mg Broad Spectrum CBD / ml massage oil
- 30mg and 200mg concentrations
- 30ml and 200ml sizes
- Third party lab tested
- Clean (Co2) extracted
- All natural & synergistic ingredients
- Less than 0.05% THC
- Vegan friendly

ENERGISE MASSAGE & BODY OIL

Broad spectrum CBD with naturally energising essential oils of lemon, peppermint, eucalyptus and lavender.

SOOTHE MASSAGE & BODY OIL

Broad spectrum CBD with naturally soothing essential oils of geranium, bergamot and lavender.

RELAX MASSAGE & BODY OIL

Broad spectrum CBD with naturally relaxing essential oils of chamomile, lavender & jasmine.
